Heredity

Volume 64 Number 1 January 1990

Shripad Taljapurkar
Age structure, environmental fluctuations, and hermaphroditic sex allocation 1

Toshihiro Kumamaru, Hikaru Sotah, Takeshi Omura and Masahiro Ogawa
Mutants for rice storage proteins. IV. Maternally inherited mutants for storage proteins of protein bodies in the starchy endosperm 9

M. I. Cano and J. L. Santos
Chiasma frequencies and distributions in gomphocerine grasshoppers: a comparative study between sexes 17

P. N. Scriven and P. C. Brooker
Caithness revisited: Robertsonian chromosome polymorphism in Caithness house mice 25

V. S. Ford and L. D. Gottlieb
Genetic studies of floral evolution in *Layia* 29

G. Jenkins and J. White
Elimination of synaptonemal complex irregularities in a *Lolium* hybrid 45

G. Alvarez, P. Martínez and C. Zapata
Genetic variation in a modifier system affecting the expression of Bare mutant of Drosophila subobscura 55

Philip W. Hedrick and Outi Muona
Linkage of viability genes to marker loci in selfing organisms 67

Anming Meng, Royston E. Carter and David T. Parkin
The variability of DNA fingerprints in three species of swan 73

D. J. Heath, J. R. Ratford, B. J. Riddoch and D. Childs
Multiple mating in a natural population of the isopod *Sphaeroma rugicauda*; evidence from distorted ratios in offspring 81

Tony G. Liebert and Paul M. Brakefield
The genetics of colour polymorphism in the aposematic Jersey Tiger Moth *Callimorpha quadripunctaria* 87

Kenneth G. Ross and Judith L. Robertson
Developmental stability, heterozygosity, and fitness in two introduced fire ants (*Solenopsis invicta* and *S. richteri*) and their hybrid 93

Joel S. Shore and Spencer C. H. Barrett
Quantitative genetics of floral characters in homostylous *Turnera ulmifolia* var. *angustifolia* Willd. (Turneraceae) 105

John M. C. Hutchinson
Stabilising selection in Weldon's snails: a reappraisal 113

M. A. Webster and C. J. Grant
The inheritance of calyx morph variants in *Primula vulgaris* (Huds.) 121

J. M. Carrillo, J. F. Vazquez and J. Orellana
Linkage relationships between the loci Sec 1 and Sec 3 in rye (*Secale cereale* L.) 125

Sebastiano Salvidio, Georges Pasteur, Benoît Heulin, Wolfgang Böhme, Larissa Kupriyanova and Claude Guillaume
Natural selection and geographical variation in a known sex-linked gene of the Common Lizard in Europe. Implications for chromosomal evolution 131

M. Sun and Fred R. Ganders
Outcrossing rates and allozyme variation in rayed and rayless morphs of *Bidens pilosa* 139

Volume 64 Number 2 April 1990

Claudio J. Bidau
The complex Robertsonian system of *Dichroplus pratensis* (Melanoplinae, Acrididae). II. Effects of the fusion polymorphisms on chiasma frequency and distribution 145

Denson Kelly McLain and Nancy Brennan Marsh
Male copulatory success: heritability and relationship to mate fecundity in the southern green stinkbug, *Nezara viridula* (Hemiptera: Pentatomidae) 161

P. Jarne and B. Delay
Inbreeding depression and self-fertilization in *Lymnaea peregra* (Gastropoda: Pulmonata) 169

J. B. Taggart, S. F. McNally and P. M. Sharp
Genetic variability and differentiation among founder populations of the pitcher plant (*Sarracenia purpurea* L.) in Ireland 177

R. Lozano, M. Jamilena, C. Ruiz Rejón and M. Ruiz Rejón
Characterization of the chromatin of some liliaceous species after digestion with restriction endonucleases and sequential Giemsa, fluorochrome and silver staining 185

M. J. Puertas, M. M. Jiménez, F. Romera, J. M. Vega and M. Díez
Maternal imprinting effect on B chromosome transmission in rye 197

Yonatan Elkind, Avigdor Cahaner and Nachum Kedar
A mixed model for the effects of single gene, polygenes and their interaction on quantitative traits. 2. The effects of the *nor* gene and polygenes on tomato fruit softness 205

Mortaza Hemmat and Paul Eggieston
Analysis of competitive interactions in triocultures of *Drosophila melanogaster* 215

Mortaza Hemmat and Paul Eggleston
The biometrical genetics of competitive parameters in *Drosophila melanogaster* 223

Thomas R. Meagher and Jonathan Shaw
Clonal structure in the moss, *Climacium americanum* Brid. 233

B. E. Giles
The effects of variation in seed size on growth and reproduction in the wild barley *Hordeum vulgare* ssp. *spontaneum* 239

D. L. Hayman and J. C. Rodger
Meiosis in male and female *Trichosurus vulpecula* (Marsupialia) 251

H. Allen Orr
Developmental anomalies in *Drosophila* hybrids are apparently caused by loss of microchromosome 255

L. B. Klaczko, P. A. Otto and A. A. Peixoto
Allele frequency estimates when only heterozygotes can be recognized: method of estimation and application in the case of chromosomal inversion polymorphisms in *Drosophila* 263

Martin T. Morgan and Spencer C. H. Barrett
Outcrossing rates and correlated mating within a population of *Eichhornia paniculata* (Pontederiaceae) 271

Srinivas Kambhampati, William C. Black IV, Karamjit, S. Rai and Daniel Sprenger
Temporal variation in genetic structure of a colonising species: *Aedes albopictus* in the United States 281

Volume 64 Number 3 June 1990

S. H. James, J. F. Sampson and J. Playford
Complex hybridity in *Isotoma petraea*. VII. Assembly of the genetic system in the O_6 Pigeon Rock population 289

Y. Karakousis and C. Triantaphyllidis
Genetic structure and differentiation among Greek brown trout (*Salmo trutta* L.) populations 297

G. M. Evans and M. M. Rahman
The basis of low grain yield and infertility in autotetraploid barley (*Hordeum vulgare*) 305

Steven A. McCommas and Edwin H. Bryant
Loss of electrophoretic variation in serially bottlenecked populations 315

Graham J. Holloway, Susan R. Povey and Richard M. Sibly
The effect of new environment on adapted genetic architecture 323

David J. Innes
Microgeographic genetic variation in the haploid and diploid stages of the moss *Polytrichum juniperinum* Hedw. 331

A. Cordero
The inheritance of female polymorphism in the damselfly *Ischnura graellsii* (Rambur) (Odonata: Coenagrionidae) 341

A. M. Jarosz and J. J. Burdon
Predominance of a single major gene for resistance to *Phakopsora pachyrhizi* in a population of *Glycine argyrea* 347

Richard H. Thomas and J. Stuart F. Barker
Breeding structure of natural populations of *Drosophila buzzatii*: effects of the distribution of larval substrates 355

J. Milo, A. Levy, D. Palevitch and G. Ladizinsky
Genetic evidence for the conversion of the morphinian alkaloid thebaine to oripavine in interspecific hybrids between *Papaver bracteatum* and *Papaver orientale* 367

Steven P. Courtney and Jeffrey J. Hard
Host acceptance and life-history traits in *Drosophila busckii*: tests of the hierarchy-threshold model 371

J. S. Parker, G. H. Jones, L. A. Edgar and C. Whitehouse
The population cytogenetics of *Crepis capillaris*. III. B-chromosome effects on meiosis 377

Fred R. Ganders
Altitudinal clines for cyanogenesis in introduced populations of white clover near Vancouver, Canada 387

Richard J. Abbott, Judith A. Irwin and David F. Forbes
Absence of a radiate morph bearing self-incompatible ray florets from Edinburgh populations of *Senecio vulgaris* L. 391

C. P. Kyriacou, M. Oldroyd, J. Wood, M. Sharp and M. Hill
Clock mutations alter developmental timing in *Drosophila* 395

T. Morikawa and J. M. Leggett
Isozyme polymorphism in natural populations of *Avena canariensis* from the Canary Islands 403

Moira M. Ferguson and Lenore R. Drahushchak
Disease resistance and enzyme heterozygosity in rainbow trout 413

D. J. Heath and J. R. Ratford
The inheritance of sex ratio in the isopod, *Sphaeroma rugicauda* 419
